

Circular & Restorative

2022

Milestones

- 23% Circular and/or Restorative ingredients
- Submitted manuscripts to scientific journals to improve biodiversity coverage of our Restorative method
- Contributed 40,000 tons of new European origin, Donau Soja certified soybeans into the market
- Partnered with key suppliers to promote restorative practices, including regenerative agriculture
- Launched the West Africa Working Group through the GRT to improve ESG impacts of fisheries
- Contributed to a social audit of impacts from the marine ingredients industry in Senegal and Mauritania
- All-time high in ASC-compliant raw materials

aquafeeds that
regenerate resources**

Our blue journey.com

Hotspot

Raw Materials

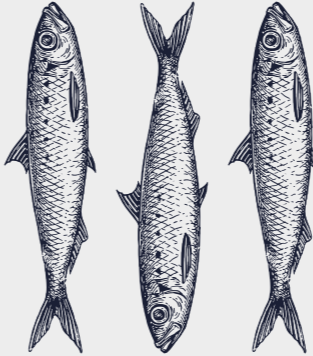

BioMar continuously balances purchasing criteria to ensure and document responsible and sustainable raw material production and procurement. For 'hotspot' raw materials that carry a higher ESG risk profile, BioMar requires certification to best-practice standards. In addition, BioMar's ambitions require additional commitments from suppliers on key sustainability aspects, including deforestation/conversion-free, responsible resource management, and additional social protections for human/labour rights.

The following certifications for hotspot raw materials represent BioMar's commitment to achieving a minimum of third-party-verified sustainability performance.

	Soy	
	CERTIFIED 100%	
	RTRS	<input checked="" type="checkbox"/>
	ProTerra	<input checked="" type="checkbox"/>
	Donau / Europe Soy*	<input checked="" type="checkbox"/>
	U.S.SAR	<input checked="" type="checkbox"/>

	Palm Oil	
	CERTIFIED 100%	
	RSPO	<input checked="" type="checkbox"/>
	Green Palm or equivalent	<input checked="" type="checkbox"/>

	Fish Oil	
	ASC COMPLIANT 86%	
	MSC	<input checked="" type="checkbox"/>
	MarinTrust	<input checked="" type="checkbox"/>
	FIP or equivalent	<input checked="" type="checkbox"/>
	FishSource™	<input checked="" type="checkbox"/>

	Fishmeal	
	ASC COMPLIANT 91%	
	MSC	<input checked="" type="checkbox"/>
	MarinTrust	<input checked="" type="checkbox"/>
	FIP or equivalent	<input checked="" type="checkbox"/>
	FishSource™	<input checked="" type="checkbox"/>

	Krill Meal	
	CERTIFIED 100%	
	MSC	<input checked="" type="checkbox"/>

This figure discloses certification in percentage terms of hotspot raw materials used in BioMar feed in 2022.
